

Student Name: Ratau Liver

Subject name: Web development

Subject code: WEDE5020

Task: POE (Part 1)

Group No: 2

1. Organisation Overview:

- ❖ Name: Victorious RSA Steel Aluminium

- ❖ Brief history of the organisation.

The company was established in March 2025 in Alberton, 216 Lumpsucker Street. The aim was to design, construct steel and aluminium products that are modern and stylish. The company uses novel technology such as laser cutters and modern welding technology.

- ❖ Mission and vision statements.

To design, construct and sell modern steel and aluminium products.

To expand the business beyond provincial borders

To increase access to steel and aluminium products

- ❖ Target audience.

Gauteng province household owners

2. Website Goals and Objectives:

- ❖ Specific goals for the website

To enhance online presence

To generate potential customers

To facilitates access to information about the business

- ❖ Key performance indicators (KPIs) to measure success.

To get more than 3 sales per months

To get more that 3 people calling every day enquiring about our products

To get more than 50 viewers visiting our website per day

3. Current Website Analysis (if applicable):

The company does not have a website, rather a face book and Instagram page

4. Proposed Website Features and Functionality:

Essential features

- Home page
- About us
- Product
- Gallery
- Contact us

5. Design and User Experience:

Green colour will be used on the background. The hierarchy of web pages will follow the order as follows homepage, about us, product, gallery and contact us. This will be on the navigation bar as component of sitemap. The information will be laid out in way that has order and easy to understand. The information will be easily accessible and easy to reach whether you are tech savvy or non-tech savvy. Finally the website will be mobile friendly such that with desktop and mobile phone it can be accessed.

Navigation tab layout
